Seissors should sever be used for the fin-ger nails, as by cutting them you make the nails course and thick, says Medical Clas-sics. With the ivory point (found in the regular manicure set) clean the finger nails, and also gently push back the flesh to reveal the white-crossent and to prevent the skin splitting and furning "hang mails;" which quicklysappear if the skin

adheres to the null. To remove stains and discolorations little tomon juice, or vinegar and water, is the best application. Should this fail, a few grains of salt of surrel, oralic acid, or chloride of lime, each diluted with warm water, may be applied, care being taken to thoroughly ruse the hands in clean water, without some afterward. Occasionally a little private stone, in impulpable powder, or powdered cattle fish bone, party powder (pollsher's peroxide of tin), may be used along with water and a piece of wash leather, figured, or the null brush for the same purpose. The frequent use of any of these substances is, however, injurious to the healthy growth, strength and perma nent beauty of the nails. The common practice of scraping the surface of the nails cannot be too strongly consured, as it causes them to become weak and dis-

Rules for Dyspeptics.

People who suffer from acute indigestion will be interested in considering how far the following rules Inid down by an English physician for such cases are applienhlote them:

Do not cut beef; it is too hearty for the average dyapeptic. Eat the lean of mutton (bolten professor).

Bacon in small quantities may be eaten. also thin silves of nemted bread fried a basen ful; also helled pig's feet and tripe and the fall not known as only fish. Est no Irali. Of vegetables partake spar-ingly of baken potatoes, rice and boiled

Broad may be eaten (agrated bread preferred) in thin alines togeted till they are

The brown ment of fowl may be esten. Avoid all gravies and sauces.

Abstala from all liquers and drink no teaunless is bearesh made.

Elst no eggs, except fresh raw, well whopen. Supara should be avolved.

Drive no lord water, partales freely of
hot water and bot milk (not boiled).

Lio down for twenty minutes after each

Hemedy for Obstinute Nose Ricciling. Oistinute nose bleeding sometimes resins the ordinary remedies and is found very difficult to check. In several severa ensus Dr. D. H. Agnew is reported to have used ham fat while marked process. Two inree cylinders of bases were forced well fining the most sea and the hencerhage quickly count. This is a simple remely weathy to be remembered, especially by people at a distance from a physician.

The Tempte of Small Netritive Value It is wident that the torage extract be walted as a unitricious feed, says the chemin of the Maryland experiment station. It is so pure in nutritive claments that its value myst depend upon those constituents which gratify the art as of sight, teste and small, promote appetite, aid direction and in other ways contribute to health and

Washington Typewriters. Some of the prettiest girls in Washngton are typewriters. They are numered by the thousands, and they are he most expert of their kind in the nited States. The greater part of the pewriting of the departments is done w them, and scores of them have offices nd take in work from congressmen, lob yists, claiments and attorneys. They ome from all pares of the country, and am told that there are 1,500 who make

e civil service by Uncle Sam. I chat-

ted with one of these about her business. She said: "Of course I like it. I get more pay ere than I could in New York, Philalphia or Chicago, and I make enough buy a let now and then. I was offeri a twelve hundred dollar clerkship in the tressury a few mentiles ago and I would not take it. I can make more outside and I would not have my life ground out by the government machine, nor will I let one of those smirky chiefs the illustration; it is ignited thereby and boss me around. I have a pumber of then completes its turn and applies itself congressmen whose correspondence I at- to the candle, which is lighted thereby, tend to. They come here in the morning and dictate their work in shorthand, and I often go to the office of a senator or to his committee room at the Capital

when there is a big job on hand.

Of course I get big prices for such isor, and have often received a dollar an hour. Such copying as I'do I get paid for by the folio of a hundred words, and the average rate paid here is sixty cents per 1,000 words. I sometimes do work for reporters, and I once had an arrangement with Amos Cummings to give him three hours every evening. He distated directly to the typewriter, and he paid me \$30 a week."—Cor. New York World.

Sensible, Not Curious.

An exchange remarks that Oliver Wendell Holmes has taken upon himself a curious custam—that of eating dinner at Curious be hanged! Dinner was meant to be enten at the noon kour just as much as breakfast was in the morning. A 60 dock "dinner" is just as much of a nispomer as a 2 o'clock breakfast. - Detroit Free Press

In these days of "building up" wamen & natural, good form is not necessary, so far as outward appearance is concerned; but profiting of American Company .

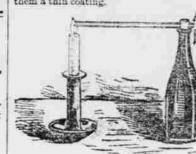

E. F. Enwands it has manifest advantages, just the same

- School Compositions.

A venerable merchant in the city of New heat of different metals take two stout wires, one of from (A) and one of copper many humillating experiences in my life, but the mest pulnful, I talink, was my effort to write essays or compositions when I was a schoolker. How many hours I have sat, pen in hand, staring at the sheet at the mest pulnful. of paper unwhich was written the given theme, 'Virtue,' or 'Honesty,' or 'The Sea-

'My mind was as blank as the paper. Why, I used to ask, was there no text book to teach ma, how to write? Everything else expressing our tifuggits in words?"

Perhapsymany schoolboys ask the same despairing queesson now as, ones each week, they sit vainly groping for ideas and words to state up the "composition" exacted by their telephones. Grantmars, spelling books and rhotories they have in plenty to teach them how to write properly—that is, how to marshal the words-but when they look into their brains there are no ideas there to put into words!

We would willisper a suggestion that the reason of this failure is that the themes usually chosen by boys and girls are unfamiliar and accove their reach. What boy of ten has medianted on "Libertys" or "The Franchise," or what do little American girls know of the Italian palaces, or nightingules, or lasks, concerning which they are apt to wells versus and tales?

No man or woman can write strongly or nobly of a subject of which hearths knows nothing. How much-less likely then is a child to do it?"

Let John or Jenny, santaneed to "write

a composition" for mext week, take some matter which is perfectly familiar and also interesting to them-a game of football, the peculiarities of their pet horse or dog, or some subjects of school or village dispute-and candidly set down their secret opinions about it. If they have any common sense, imagination, feeling or any in-tellectual takent it will be manifested on this well known ground .- Youth's Com-

How to Cook Bass.

A keen angler and careful observer of fish and halling thus describes the best manner of scottiste serious basts It has taken a fill sunry just twenty-five years to learn how to cook and serve a straped bass, and the trick was discovered by seement.

He caught a bree pound striped base in the Hudson rest, affect it and removed its entrails insmellately after scenring it. The firs and scales were not removed, and ending the fish to the dischen, he negacted to order the lines scaled. Safewas er in bits were placed on its side, a fish loth was wrappedsaugly round its graceful form, and it was put in the steamer, where it cooked an hour and a quarter.

Steaming is his experies to beilding a bass.

When the fish was placed on the platter, to the surprise of the company its etained its beautiful appearance. The characteristic stripes were almost as distinct as in life, and the whole general appearance of the fish was more pleasing to the eye and more appetiting than any bass they had

ever seen before Then came the serving of it in such a manner as not to scatter the scales over The figh knife was inserted along the back houlder and tail, and the skin was lifted off without any difficulty. Of course this could have been done in the kitchen, but the serving of the fish intact is an ocular advantage. Turf, Field and Parm.

In Turkish prisons the Mussulmans and Christians are kept apart, and the former a grave and gentlementike looking set of men, back in the sun most of the day parts, lard four parts and one part caoni-chone (raw rubber), melted together on a smaking and they perform frequentable tions at the trickling fountain in the midof their suring yard. They give no trouble and wait with the utmost patience on doors for them. The Christians, a herd of Greeks, Bulgariens and Macedonians with the most villainous faces, morals and manners imaginable, have to be ruled with a tight hand to be kept from strangling one another.

When it becomes necessary to hang one of these gentry the Greek goss-to his pan-ishment struggling and howling; the Turk makes memore ado about the matter than he were going to have his head shaved. As the Eurkish exchequer provides no urious things occasionally happen. Not ong ago a Purk who had to be hanged at Kirdialt walked about the town-for an four with two soldlers who had been or dered to execute him. These soldiers didnot mean to buy a rope-with their own money and they had falled to berrewens. Eventually they broke into a stable stole a repeated hanged their man from a nail over the door .- Temple Bur.

Self Respect and Public Order.
